Education

Vellore Institute of Technology, Vellore July 2024 – April 2028
B.Tech in Information Technology *CGPA: 9.14*

Technical Skills

Languages & Formats: C/C++, Python, Java, SQL, JavaScript, TypeScript, HTML, JSON
Frontend: React, Next.js, AngularJS, Tailwind CSS, Bootstrap, Chakra UI, Framer Motion, Vite
Backend & Tools: Node.js, Express.js, Flask, REST APIs, API integration, Git, GitHub, Vercel, AWS
Data & Auth: PostgreSQL, MongoDB, MySQL, Firebase, Firebase Auth, Prisma, Drizzle ORM, Neon
Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS, OS, Computer Networks

Experience

Solder Labs Sept 2026 – Present
Full Stack Developer Intern *Hybrid*

- Contributing to **MediOS**, a hospital operating system unifying patient records, scheduling, billing, staff management, and communication workflows.
- Collaborating with frontend and backend teams on feature development, integration, and debugging for upcoming client deployment.

Advanced Developer's Group (ADG) Feb 2025 – Present
Core Member, Web Development *Vellore Institute of Technology*

- Developing responsive full-stack applications with **React, Next.js, TypeScript, and Firebase** alongside senior developers.
- Contributing to API integration, UI optimization, debugging, Git-based collaboration, and deployment workflows.

Projects

HackGrid View project
Next.js, TypeScript, React, Tailwind CSS, Prisma, Neon, Firebase

- Built a full-stack platform for a **36-hour auction-based hackathon**, supporting team management, auction settlements, and SaaS problem-statement allocation through backend APIs and database models.
- Developed a mobile-optimized **judge evaluation system** with team search, auction details, and structured scoring.

Contest Manager View project
Next.js, TypeScript, Express.js, PostgreSQL, Drizzle ORM, Firebase Auth

- Aggregated contests from Codeforces, LeetCode, and other platforms using the **CLIST API**, with server-side fetching, upcoming-contest filters, countdowns, and timezone-aware schedules.
- Built an Express.js/PostgreSQL backend with Drizzle ORM and Firebase Authentication for secure login and personalized contest tracking.

Recruitment Portal View project
Next.js, TypeScript, React, Python, Firebase, Tailwind CSS, Chakra UI, Framer Motion

- Built a recruitment and assessment platform for **500+ students**, with domain-based assignments, protected routes, and Google OAuth restricted to **@vitstudent.ac.in** accounts.
- Implemented real-time submission tracking, validation, deadline enforcement, and duplicate prevention, with responsive dashboards and loading states.

Achievements

- Peak ratings: **Codeforces: 1395 (Pupil)** | **CodeChef: 1603 (3-star)** | **LeetCode: 1559**.
- Achieved **Global Rank 238** in CodeChef Starters 229, Division 3.
- Secured **3rd place** in a GDSC hackathon among **1,500+ freshers**.
